MY STAY AT RN CLASSES

I joined RN Classes in the beginning of +1. The two years were a memorable experience with lots to learn. The extent of depth, concept clarity and relevancy of teaching each topic helped me build my fundamentals. The extremely systematic and planned teaching under a single guidance ensured that every topic went on fluently and in time. The regular tests at RN classes after each chapter were a source of inspiration and encouragement. The healthy competition made sure I was never demoralised. The good quality Assignments with good amount of question to be solved in a timed manner ensured we were prepared for timed analysis. Extra classes of RMO/INMO helped in excelling in these exams too. RN sir's able and experienced guidance makes this institute outshine.

I have had a wonderful time studying Maths at RN classes. I find the professional approach adopted here very nice. The Teachers here have very good concepts & are always eager to pass on their knowledge & experience to the students. The tests conducted have varying level, ranging from easy to very tough, thus providing a balanced evaluation. The assignments are very good, & the fact that we are supposed to do them within a specified time limit provides practice for the final exam. Finally, I highly admire RN sir, ~~for putting in~~ as he puts in much effort, not only for the toppers, but for the whole batch.

I thoroughly enjoyed my two year stay at R N Classes. Teaching at R N Classes was top class and everything was taught from very basics helping me to understand the crux of the subject. Time bound assignments were excellent. Tests were of appropriate level and of varied pattern. Competition among ourselves was one of the key points that helped me realise my potential. Books suggested were good and complete syllabus was covered in a comprehensive manner. Library facility was helpful. The motivation in the form of a sir especially towards the end was what got me going for IIT.

My stay at RN Classes was very encouraging and enjoyable. I am very satisfied with RN sir's ~~teaching~~ ^{teaching} coverage of each concept in a logical way. RN sir gives sufficient time for each problem and encourage the students to crack each problem himself/herself without taking assistance of any one. This is the best thing I like in ^{and assignments} this teaching. Tests are of good level but at times I feel they should be of more difficult level. Sir's method of revision is unique and I like it very much. ^{the quality} Sir is very punctual which is not ^{in our} ^{about classes and books} other subject teachers. Sir's experience is very helpful for the JEE preparation. I ~~for~~ I gave my whole credit ^{to} my clearing maths Olympiad to sir. I am fully satisfied with teaching at RN classes.

Sir, I would like to thank you and express my heartfelt feelings regarding your guidance and tests which I gave. Every test I gave boosted my confidence, and in a bid to get ahead of others, each one of us reached a level from where we were confident of making it to get into the coveted IIT's. Concepts, and tough problems, were all learnt in an atmosphere of cooperation, and healthy competition. There was always a comforting hand in times when my confidence was low. I hope that you continue to send people into the highest institutions in India create a really congenial ground for the 'spread' of Education' and enable the society to understand the real objective of education.

I am highly grateful to Rn Sir for all the motivation, determination and self-confidence he provided me during my two years' study at Rn Class (2006-07 & 2007-08). The highly competitive environment at Rn Class always encouraged me to do better. The time bound assignments and well designed tests prepared by Sir greatly helped me correct my regular mistakes and errors. I got a good hold on NCERT book because of Sir. In the beginning of the session, I was a bit lazy and did not like to work hard. But Sir encouraged me to work hard. I really liked the way Sir tackled my problems and helped me, by providing his kind suggestions and worthy advices. He emphasized not to leave a single topic. He prescribed me useful books from time to time to improve each and every topic. He not only improved my maths but also improved my physics and chemistry. I really thank Sir for all his care, help and advice. Rn Sir is the best teacher I have of all the teachers who have taught me till date.

Sir,
Your teaching technique is excellent and it brings out the best in every student. Your main thrust is on teaching the basics and the ~~is~~ techniques ~~is~~ about problem solving which I think is the best way to learn maths. I thank you very much cause it's mainly due to you that I made it to far in IIT.

I am glad that I got the opportunity to prepare for JEE under the guidance of Anura Sir. The methodology that he followed was excellent and had been immensely carved improved and beautiful carved over his yrs of experience. Sir recommended some ~~was~~ wonderful books for our preparation. The class was quite competitive and the lectures ~~by~~ sir (not necessarily regarding syllabus) were extremely motivating. Sir covers all the concepts in the limited no. of problems that he can do in class. I wish that more and more students come ~~under~~ ^{under} the guidance of Anura sir and help Chandigarh to keep on improving its results.
